ALMA MATER

*Alma Mater, noble mother,
In our hearts we cherish thee
For ideals that thou hast given;
All we are and hope to be;
Truth and courage, strength and valor
Found in thee throughtout the years;
You have held aloft our standards
'Mid our hopes and darkest fears.*

*Alma Mater, loving mother,
Heed us while we truly ask
That our lives be not unworthy
Of a great and noble task;
Hold with us our lofty banner,
Fill our hearts with burning zeal
To conquer worlds that lie before us,
And show to thee the love we feel.*

TO THE STUDENTS OF JONES COUNTY JUNIOR COLLEGE

I am grateful to have this opportunity to welcome you as a student at Jones County Junior College for this school session. Many of you are returning for a second year in college and we are happy that you are continuing toward your college degree. To our students who are beginning your college program, we want to congratulate you upon your academic achievement which enabled you to graduate from high school, and we salute you as you join the great host of young people who are college students.

We want you to find on the campus a spirit of helpfulness, and a feeling that everyone who is connected with the institution has a genuine interest in you as a student. It is our purpose to provide the type service that will meet your needs. The Junior College program provides many opportunities for growth and development and we encourage you to discover these opportunities and take advantage of them.

Each year is filled with many privileges and opportunities. Only in so far as you participate in college activities and uphold the very highest standards in your personal conduct and activities can you hope to receive maximum benefit for your time spent here in college. We urge you to take full advantage of every opportunity provided for your personal growth and improvement. This will involve your participation in many areas of college life. You are encouraged to use the library, laboratories, club and class activities, and the many relationships you will have with faculty and students to contribute to your personal improvement.

This is the beginning of the forty-third year of the junior college and the beginning of the fifty-ninth year of the institution. We begin each year with the feeling

that it is the most important year in the life of the college. We feel that each year challenges us to make it a very significant year and we want this to be one of the best years in the life of the school.

There is an effort by all who are interested in the growth and development of the program at Jones County Junior College to seek to improve the facilities and to expand the educational opportunities. A number of new and expanded programs will be available to students who enroll for this session. We are continuing to add new buildings and new equipment to the program at Jones County Junior College. The new Fine Arts building has been completed. Each new facility contributes to an expanded program.

We want you to understand that it is our desire to be of service in promoting your educational needs in every way possible; therefore we encourage you to visit with us and ask questions regarding any area in which you feel we can be helpful to you. Through this Handbook we express to you in a small way what the college expects of you and what you may expect from the college.

Mark Twain once said: "All of you have won your places not by hereditaries, and not by family influence or extraneous help, but by the natural gifts God gave you at your birth, made effective by your very own energies."

So, remember this well—your energies and responsibilities, with God's help, have brought you this far. It is even more important that you rely on these same energies and abilities and help from God, from this point on! Each of you can make something of yourself because by your very presence here today you have proven that you have something in yourself. The responsibility is yours.

Tomorrow's challenge is a great reason for your existence, and upon you rests the future of our nation and of the free world.

Terrell Tisdale, President

HISTORY OF JONES COUNTY JUNIOR COLLEGE

This institution will begin its fifty-ninth year in September 1970. The school had its beginning in 1911 with an enrollment of eighty-five students and a faculty of five. It continued as an Agricultural High School until 1927, when the Jones County Junior College was established by adding two years of college to the institution, thus making it the Jones County Junior College and Agricultural High School.

The Jones County Agricultural High School discontinued an active program of high school work during the session of 1957-58. This action was taken due to the fact that the students who were being served by the Agricultural High School program became a part of the County Unit System of Jones County. This new program was set up as a part of the reorganization plan of the State of Mississippi for the public schools.

In its beginning, the institution was supported by Jones County alone. Since the establishment of the Junior College other counties have joined in the support of the school. These counties are Covington, Greene, Jasper, Clarke, Smith, Perry and Wayne.

The Jones County Junior College is one of a group

of seventeen public junior colleges in Mississippi. Its enrollment has increased until today it is one of the largest junior colleges in Mississippi.

On Sunday evenings these churches present youth meetings which include the Baptist Training Union, The Methodist Youth Fellowship, and the Presbyterian Youth Fellowship.

Withdrawals

Students who sign up for a class are expected to attend all meetings of that class. After two weeks of any quarter, no class will be dropped without a grade. (See Class Attendance below). Classes may be dropped only with permission of the Dean of the College. After the quarter is two weeks old, drops will not normally be authorized except in emergencies and for the convenience of the college. Unauthorized withdrawals and class abandonment will result in a grade of F and such other disciplinary measures as the Faculty Committee on student discipline may impose.

Class Attendance

Regular and punctual class attendance is required. Cuts must be excused by illness, unavoidable detention, or college business. Excessive class cuts will result in a grade of "F" in all classes being cut. Excessive cuts at assembly will result in a general lowering of all grades.

Athletic

We have intercollegiate athletics at Jones County Junior College because they constitute a part of the right kind of "growing-up" experience for American young men and women. Youth is interested in doing things well, in belonging, and in displaying loyalty. By means of a well-administered college athletic program, both student competitors and spectators become better American citizens through participation in and observation of athletic contests played under established rules impartially administered.

We feel that (1) athletics should occupy a position in the curriculum comparable to that of other subjects or activities, (2) athletics should be education centered, (3) athletics should be used to promote school morale. Proper student interest should be created by student attendance at all contests.

Sportsmanship, fair play and good school citizenship

should be the objectives of all athletic programs.

On an intercollegiate basis, we participate in football, baseball, track and tennis, and we feel that we should not make the distinction of major and minor sports, since no sport is minor to the student participating.

This program of intercollegiate sports is supplemented by a well-rounded intramural and physical education program in which we try to reach every student in some way, even those who need corrective physical education.

Cheerleaders are selected at the end and beginning of each school year. The Cheerleaders lead the student body in the development of a wholesome school spirit.

Each student is required to have an Activity Ticket, which is included in the payment of his General Fee. The Activity Ticket will admit the student to all athletic contests on the campus. These are distributed through the Athletic Director's office.

Library

The library is one of the units of the school that is designed to serve the entire student body and staff. So that every person will have equal opportunity to use the library materials it is necessary that rules and regulations be followed. You have the privilege of using the library in accordance with the rules that have been established for the benefit of all students and faculty.

Most students in college are aware of what constitutes proper conduct. The library is not a social gathering place. Any behavior which is distracting to other students or to the librarian is inappropriate. Students who must talk while reading and studying will be asked to find some other place than the library to talk. Brief conversations are permitted in the lobby and foyer, but no unnecessary talking is permitted in the library. All students may use library books, which have been checked out with a proper library card, but only those students studying and reading quietly may use the library tables and chairs.

Library hours are as follows:

Monday-Thursday	7:30 a.m. - 5:00 p.m. 6:30 p.m. - 9:00 p.m.
Friday	7:30 a.m. - 3:00 p.m.

We consider that young men who choose to live in the dormitory certify their acceptance of policies and regulations related to dormitory life. The failure to observe these policies and regulations related to dormitory life subject them to disciplinary action. The decision in this matter is the responsibility of those in charge of the dormitory. Any failure to respond to disciplinary action makes the student ineligible to live in the dormitory.

Penalties and Restrictions

The "downs" system is employed at Jones County Junior College. A "down" is a penalty given for violation of campus or dormitory regulations or conduct unbecoming that of a college student. Upon accumulation of 10 downs, the student will be required to appear before a disciplinary committee. The continued accumulation of downs subjects the student to the surrendering of the privilege of living in the dormitory.

Academic Standards

It is expected that all students participating in special privileges will understand that a grade level should be maintained that will qualify a student for graduation at the end of a two year period. This means a general C grade average. A student not performing on this level will be counselled regarding the use of privileges.

A gentleman shows respect for his girl by seeing that she is on time; he notifies the Dean if an emergency prevents prompt return.

There will be no dating in parked cars.

Familiarity or public show of affection are considered improper and indiscreet; do not cheapen your relationship by such public demonstrations.

It is not proper to "confer" out the window with your date at any time.

Visits

There will be no protracted visits or loud untoward conduct by residents, guests or visitors in the dorm.

There is a systematic room inspection at which time rooms must be clean, waste baskets emptied, drink bottles, etc., returned to their proper places. In general the condition of the room must be clean, neat and attractive.
